JOB ANNOUNCEMENT

JOB TITLE: Industrial Maintenance Tech
REPORTS TO: Travis Moore

ESSENTIAL DUTIES AND RESPONSIBILITIES (include the following. Other duties may be assigned.)

The Industrial Maintenance Tech will perform the daily upkeep of the building and all manufacturing equipment to ensure that both the plant and its equipment are in top operating condition and available for production as needed. The Industrial Maintenance Tech will perform scheduled preventative maintenance on the building and manufacturing equipment. The Industrial Maintenance Tech will complete work orders involving electrical, compressed air, water, colling systems, all plant systems, and similar services. It is a benefit if the candidate already possesses basic industrial machinery trouble shooting skills. In this position, the candidate will obtain knowledge and gain proficiency in plant maintenance trades and crafts.

QUALIFICATIONS AND REQUIREMENTS:

- 1-2 years plant maintenance experience a plus
- Must possess a valid driver license, and will be required to drive a box truck when needed.
- Any knowledge of production equipment and computer proficiency a benefit
- Familiarity with the use of electrical and hand tools
- Ability to work with all manufacturing departments on production issues
- Self-motivated and able to complete assigned tasks with little to no supervision
- Must be willing to work overtime, when necessary, with little prior notice and/or weekends for special projects
- Must follow all Safety Guidelines and have working knowledge of lock out/tag out procedures

Drug Free Workplace
